CAREER SUMMARY

- Over **7 + years of experience** in analysis, design, and development experience in the IT industry Oracle applications Configuration with SQL, P/SQL coding. experience.
- **With SCM, Finance, and Project portfolio management (PPM) modules.**
- Experience in **Oracle SQL, PL/SQL, Forms, Reports, XML Publisher, SQL Loader, JDeveloper, Java, JSP, and Unix scripting.**
- Experienced in requirement analysis, coding, and testing various modules in a software development life cycle.
- Demonstrated expertise in both functional and technical aspects of Oracle applications' financial modules, with a focus on hands-on development.
- Having 7+ years of experience as a Technical Consultant in **Oracle E-Business Suite Applications (11i, R12) & Oracle Cloud applications**
- Hands 5 Years' Experience in Creating Fusion BIP, OTBI Reports from scratch onwards, and customization.
- Experience in development using Various Oracle versions 10g/11g/12c/19c databases and writing SQL queries, PL/SQL Programs using Procedures, Functions, Packages, Cursors, Exception Handling, Pipeline Functions, Constraints, Triggers, Index, Collections, Views, Materialized Views, With clause queries, UTL_FILE, XML, JSON, External tables Native and Dynamic SQLs.
- **Have worked on end-to-end implementations of Oracle BRM (UNIX/LINUX 86).**
- Proficient in RPG (Report Program Generator), CL (Control Language), and Four Gen ERP (Enterprise Resource Planning) systems.
- Extensive Knowledge of Case Processing, Workflow, ESM profile, Argus Console, and configuring Oracle Argus System in a validated environment.
- Having experience Experience in **web services /API (SOAP/REST) design and Implementation.**
- Having experience in **Oracle EBS APIs and open interfaces.**
- Having experience in tools like **Oracle Service Bus, Oracle Discoverer, and Web ADI**
- Having very good experience in **developing RICE (Reports, Interfaces, Conversions, and Forms) Components in the domain of Oracle Applications E-Business Suite (R12).**
- RTF Template, Excel Template, E-text template
- Preferably, possess experience in SAP financial environments, enhancing versatility in handling diverse client requirements.
- Involved in Page integration using Sand Box in the Oracle fusion application.
- Extensive experience in Oracle BI Publisher Reports, Oracle alerts, Forms Customization, Workflows, Interfaces, Conversions, and Form Personalization.
- Given technical training to the Business Users & Key users and designed the training documents.
- Prepared technical design documents for customizations and conversions using AIM documentation methodology.
- Demonstrated technical knowledge in one or more of the following Oracle EBS R12.2 process areas: Budget to Report (B2R), Procure to Pay (P2P), Acquire to Retire (A2R), and Order to Cash (O2C)
- Experience with integration to Oracle E-Business Suite and /or legacy systems.
- Excellent command over the full life cycle of E2B transmission and debugging Inbound & outbound ESM environments along with E2B Extension hands-on experience.
- Experience in Oracle Integration Cloud using FTP, SOAP, REST, FBDI, BIP Reports, Saas, and Paas including experience with working on-premises integration and 3rd part applications to Oracle Cloud.
- Experience in handling Master Vendor Data management between multiple systems like PeopleSoft, Oracle Cloud, SAP, and Oracle EBS.
- Having experience with API's, FBDI.
- Well-versed with Oracle BIP integration with BRM to support invoicing formatting.

- Good working knowledge of Oracle AIM Methodology. Handled Service Requests (TARs) with Oracle. Knowledge of Oracle Accelerator and Oracle R12.2.
- Worked on various Oracle cloud projects in Finance and SCM area utilizing OIC and SaaS.
- Worked on Oracle Cloud Tenancy setup and OIC instance setup -creating FTP and REST adapters for integration with the SaaS environment.
- Developed Suppliers and Customers inbound and outbound integrations using OIC. This integration is between Oracle Cloud and 3rd party system.
- Worked on AP invoice conversions using OIC using FBDI.
- Involved in all phases of OIC infrastructure, worked with Oracle team on architecture of projects.
- Having extensively worked in the R11, R12 and R13 fusion environments.
- Good functional knowledge of Procure to pay cycle, Order to cash cycle, and business processes with technical structure.
- Having Extensive Oracle Technical R12 and R13 experience on Oracle Financials and SCM modules -Order Management, Oracle Purchasing, Manufacture, Security console, Oracle Inventory, Global order promising (GOP), Pricing, Shipping, Inventory Management Oracle Account Receivables, Oracle Account Payable, Oracle General Ledger, Cash Management, Manufacturing Modules, IProcurement, Oracle Project Modules, Fixed Assets, Oracle Fusion CLOUD Financials.
- Experience in data migration (FBDI, Spreadsheet, and ADFDI) from the source system to Oracle fusion.
- Monitoring tools OEM12c, APM, EPM, and Cloud Watch.ust
- Expert in creating custom ESS jobs and Involved in the Schedule part.
- Experienced in Oracle Cloud personalization using Sandbox.
- Having Good Expert technical skills in EBS and fusion.
- Cloud BIP Reports
- Cloud ERP modules (Accounts Payable, Procurement, Accounts Receivable, GL, FA, Project, and Cash Management, Inventory, Purchase order, Order Management)
- OIC using different adapters.
- Worked as Team Lead and developer for multiple production support projects simultaneously.

TECHNICAL QUALIFICATIONS:

ERP: Oracle EBS Applications, Oracle Fusion Application

Skills: Oracle Reports, XML Publisher Reports, Interfaces, Conversions, P2P, O2C, Data Template Reports, Oracle Integration Cloud, Fusion Bi Publisher Reports, Data Migration Activity from Source system to Fusion Application(R13) using Spread Sheet, FBDI, BIP, OTBI, Bursting Reports in fusion

Programming Languages: SQL, PL/SQL

Oracle Tools: Sql Developer, TOAD, XML Publishers, WinSCP, Putty, xmlp server, JIRA

Technical Modules: Accounts payables (AP), accounts receivables (AR), general ledger (GL), fixed assets (FA), inventory (INV), purchasing (PO), Order Management (OM), and Project Modules.

IQVIA, Durham, NC, US

August 2022 to Till Date

Role: Oracle PL/SQL Developer

- Developed the fusion bi-publisher reports.
- Design and Develop Oracle PL/SQL batch and real-time processes for loading data from internal and external systems using SQL loader and external tables.
- User Dynamic SQL and execute immediate functionality to perform DDL in PL/SQL blocks and procedures.
- Attending daily status calls and weekly reporting.

- Hands-on experience with Oracle ERP, including customization, extension, and integration with other systems.
- Developing OTBI, FRS Reports.
- Designing, Developing and Deploying structured BPEL, ESB and Java Web Services using SOAP Over HTTP / JMS, WS-Addressing, correlation sets.
- Worked on Localization in VBCS for French (Canada) and Spanish.
- Responsible for deploying overseeing a company's cloud computing strategy. This includes cloud adoption plans, cloud application design, and cloud management and monitoring.
- Defining cloud migration strategy from on premises to Oracle Cloud infrastructure. For Oracle Fusion Middleware 12c stacks OCI, IDCS, JCS, SOA CS, DBCS
- Good Knowledge of design, develop, code, test, UAT and Validate the BIP, OTBI Reports.
- Extensive technical development experience in Oracle EBS, specializing in PL/SQL, Oracle Forms, and Reports development.
- OIC integration to automate the end to end FAH process.
- Done business process design, Oracle configuration and debugging of Oracle Financial applications and production support.
- Building of GUI framework over custom BRM APIs for Accounting Team to view the suppliers and its contracts and Approve the Aggregated payables to make it ready for payments
- Involved Enhancement Requirement in Fusion BIP, OTBI Reports from Procure to pay cycle
- Migrated the Fusion BIP, OTBI Reports from UAT to Production.
- Worked on to Developed new VBCS page using R12.2 Template.
- Involved OTBI Reports using multiple subject areas.
- Involved technically Accounts Payable, Procurement, Accounts Receivable, GL, FA, PPM, and Cash Management, inventory, Purchase order, Order Management, Global order promising (GOP), Pricing, Shipping, Inventory Management.
- Created WSDL's for SOA services that can be used across enterprise.
- Create custom Reports and register for the ESS job.
- Orchestrated the entire business process and human task flows using BPEL Process Manager, ESB, Web Services, WSDL, SOAP, UDDI, XML Oracle Top Link, and Oracle SOA JDeveloper 11g.
- Did the delta setups and created BR100 documents for SCM and Finance modules.
- Debugging of complex technical ESM issues.
- Developing the rtf, e-text and excel templates.
- Oracle Integration Cloud using FTP Adapter, File Adapter, ERP Cloud Adapter.
- Involved SOAP and REST in OIC.
- Developed Oracle FSG reports for financial statements analysis and reconciliation.
- Experience in Import formats, Data Load Mapping, Data load Rules and integration between ARCS and Oracle Fusion in Data Management Cloud.
- Designed and developed SOA webservices using BPEL between SAP PI and SI.
- Develop the outbound integration and place the file in FTP server using Bursting concept.
- Developed Suppliers and Customers inbound and outbound integrations using OIC. This integration is between Oracle Cloud and 3rd party system.
- Worked on AP invoices conversions using OIC using FBDI.
- Involved in all phases of OIC infrastructure, worked with Oracle team on architecture of projects.
- Developed integrations using OIC bases on GEN-906 technical documents.
- Designed and developed OIC utilities for Fusion ERP Integrations.
- Worked on Automation of loading source data into Account Reconciliation management (ARCS) and hands-on experience on creation of Profiles and Tasks.
- Developed OIC utilities for migration of OIC artifacts to UAT and Productions.
- Involved thoroughly in SIT (Smoke testing, Sanity check and Integration testing) for SCM and finance domain such as Drop Ship cycle, Back to Back, Quote to Order EBS, ATO cycle, B2B EDI.

Created Order from MWS Quote and progressed it to closure, Service Contract to Order cycle, International order creation and integration to Trade sphere, Integration of sales order with WMS, Creating modifier through template and manually, Modifier application on sales order lines, RMA flow, Create & Update Price Lists.

- Designed and created complete business process for orchestration using Oracle Integration Cloud (OIC).
- Involved page integration using Sandbox.
- Involved in understanding and analysis of functional documents (RD).
- Creating the build documents.
- Involved in Production support tickets.
- Supplier, Bill of material and Contract creation as Account hierarchy in BRM.
- Developing the Custom BIP reports and Involved in the seeded report customization.
- Developing Bursting reports like Email and FTP.
- Developing outbound integrations.
- Designed Fusion Security for financial and FAH applications.
- Migrated the data (Suppliers, customers etc..) from source to fusion application using FBDI.
- Involved page customization and page integration in fusion application.
- Configuration owner for Oracle Financial modules such as GL, AP, AR, FA, Cash
- Developing the RTF Template, Excel Template, and E-text template.
- Preparing the To-be document based on business requirements.
- Tech stacks-OCI - IaaS, PaaS, UCS, ICS, OCCS, ACCS, DBaaS, SoaCS. etc.) BareMetal cloud and Oracle Cloud @ Customer.

Environment: WinSCP, Sql Server, EBS (R12.2), Oracle Fusion (SaaS), JIRA, Argus ESM, Oracle Integration Cloud.

HUB International, Chicago, IL, United States

June 2021 - July 2022

Role: Oracle Fusion (SaaS) consultant

- Developing Bursting reports like Email and FTP.
- Involved Enhancement Requirement in Fusion BIP, OTBI Reports.
- Migrated the Fusion BIP, OTBI Reports from UAT to Production.
- Involved OTBI Reports using multiple subject areas.
- Involved technically Accounts Payable, Procurement, Accounts Receivable, GL, FA, PPM, and Cash Management, inventory, Purchase order, Order Management, Global order promising (GOP), Pricing, Shipping, Inventory Management.
- Create custom Reports and register for the ESS job.
- Migrated the data (Suppliers, FA, Projects etc..) from source to fusion application using FBDI.
- Expert on the Technically and data migration in Order to Cash and Procure to pay cycle modules.
- Developing the rtf, e-text and excel templates.
- Worked on customization of conversion manager tool(CMT) of BRM to support migration of history data of bill, event, item: from the legacy database to the BRM database.
- Involved page integration using Sandbox.
- Developing outbound integrations.
- Created financial statement reports using FSG in GL.
- Data migration Involved from source system to fusion application using FBDI, Spreadsheet, Adfdi.
- Designed and developed SOA integration solutions between BAAN and Salesforce.
- Analyzed cross-functional requirements and designed optimal solutions, ensuring alignment with business objectives.
- Led the customization activity for ESM back end transmit code changes.
- Developing OTBI, FRS Reports.

- Working experience in creating ESS jobs, Lookups and Involved in Scheduling part.
- Working with Oracle support for remediation.
- Develop and execute comprehensive test plans for Oracle financial applications.
- Worked on VBCS to Build the Custom Form for approval process.
- Analyzing FD documents and writing the TD documents.
- Developed RTF, Excel templates.
- Integration of BRM with Oracle BIP for invoicing and BRM base reports.
- Oracle Integration Cloud using FTP Adapter, File Adapter, ERP Cloud Adapter.
- Worked on VBCS developing web application, Consuming REST API, SOAP services and Business events.
- Experience in Creating Fusion BIP, OTBI Reports from scratch onwards.
- Good Knowledge of design, develop, code, test, UAT and Validate the BIP, OTBI Reports.
- Implement new COA structure as decided by Air Liquide for their operations in Singapore, Taiwan, China and Malaysia. SCM (Purchasing, Inventory), finance (Account Payables, General Ledger), I-Procurement, Cash Management will be used.
- Worked on VBCS developing web application, Consuming REST, SOAP Services and Business events.
- Developing the Custom BIP reports and Involved in the seeded report customization.
- Attending daily status calls and weekly reporting
- Involved in understanding and analysis of functional documents (RD).
- Coordinated with Technical team to build the Check print report, outstanding checks report, Asset Master report etc.
- Participated in UAT Sessions with the Client and fixing those issues.
- Taking sign off for all the phases and freezing the requirements.
- Preparing User manuals for business users.
- Planning the cutover strategy for migration.
- Integration of oracle eBilling with BRM for the bill analysis and payments.
- Supporting the Post Go-Live issues.
- Assisting the client in Period closing process

Environment: WinSCP, SQL server, Fusion (SaaS) Application,ESB, Oracle, PL/SQL, JIRA.

CITI Group, New York, US

Feb 2020 - May 2021

Role: Oracle functional Consultant

- Developed the fusion bi publisher reports.
- I have done migration Suppliers, Customers, AP invoices, AR invoices, tax profiles, Items, Purchase orders, Fixed Assets using FBDI, Spread Sheet, Integration, ADF DI.
- Experience in O2C and P2P functionally as well as technically.
- Experience in Creating Fusion BIP, OTBI Reports from scratch onwards.
- Worked on VBCS to Build a Web application to manage ERP Banks Information using REST APIs provided by Oracle.
- Analyzing FD documents and writing the TD documents.
- Developed RTF, Excel templates.
- Involved Enhancement Requirement in Fusion BIP, OTBI Reports.
- Migrated the Fusion BIP, OTBI Reports from UAT to Production.
- Involved OTBI Reports using multiple subject areas.
- Having the Fusion application page integration in AP Invoice, PO, Suppliers forms.
- Attending weekly status calls and weekly reporting.
- Involved in understanding and analysis of functional documents (RD).
- Involved in the migration part from R12 to R13(Fusion) by using a spreadsheet, FBDI, Integration and ADF DI.
- Coordinated with the Technical team to build the Check print report, outstanding checks

report, Asset Master report, etc.

- Participated in UAT Sessions with the Client and fixed those issues.
- Taking sign-off for all the phases and freezing the requirements.
- Preparing User manuals for business users.
- Planning the cutover strategy for migration.
- Supporting the Post Go-Live issues.
- Assisting the client in the Period closing process

Environment: WinSCP, SQL server, Oracle fusion (SaaS) Application, SQL, PLSQL

Client: Vegha Software Solutions, India

June 2017 – December 2019

Role: Oracle Fusion (SaaS) consultant

- Analyzing FD documents and writing TD documents.
- Developed RTF, and Excel templates.
- Involved OTBI Reports using multiple subject areas.
- Experienced AP Invoice, and PO Page integration.
- I have migrated Suppliers, Customers, AP invoices, AR invoices, tax profiles, Items, Purchase orders, and Fixed Assets using FBDI, Spread Sheet, Integration, ADF DI.
- Involved SOAP and REST in OIC.
- Develop the outbound integration and place the file in FTP server using Bursting concept.
- Involved the Data migration Activity multiple phases.
- Developed fusion reports like AP, AR, PO, OM Reports.
- Attending weekly status calls and weekly reporting.
- Involved in understanding and analysis of functional documents (RD).
- Involved in the migration part from R12 to R13(Fusion) by using spread sheet, FBDI, Integration and ADF DI.
- Good Knowledge of design, develop, code, test, UAT and Validate the BIP, OTBI Reports.
- Working experience in creating ESS jobs, Lookups and Involved in Scheduling part.
- Working with Oracle support for remediation.
- Provided Production support in Oracle Financial modules like GL, AP, AR, PO iProcurement and Cash Management.
- Developed Oracle fusion Reports (SCM, Finance) using BI Publisher.
- Experience in Creating Fusion BIP, OTBI Reports from scratch onwards.
- Good Knowledge of design, develop, code, test, UAT and Validate the BIP, OTBI Reports.
- Involved Enhancement Requirement in Fusion BIP, OTBI Reports.
- Migrated the Fusion BIP, OTBI Reports from UAT to Production.
- Working experience in creating ESS jobs, Lookups and Involved in Scheduling part.
- Working with Oracle support for remediation.
- Oracle Integration Cloud using FTP Adapter, File Adapter, ERP Cloud Adapter.

Environment: WinSCP, SQL, Putty, RDF reports, xml reports SQL, PLSQL
